"Soil without biology is just geology."
-Ray Archuleta

South Dakota
Soil Health Coalition

The South Dakota Soil Health Coalition is proud to announce the South Dakota Soil Health School which will be held September 5-7, 2018 in Hartford, SD. Field demonstrations will be held at the farm of Kurt and Kathy Stiefvater.

The Soil Health School is designed for agricultural producers as well as anyone with an interest in learning how to manage soils for resiliency and profit.

The agenda features classroom style presentations from producers and technical experts from across the state and region, as well as hands-on experiences in the field. Area producers will share their challenges and successes with various methods for improving soil health.

Space is limited.
Early registration is encouraged to participate.
First session starts at 8:00 AM Wednesday.
Final session will end at 1:00 Friday.

Soil Health School participants will benefit from hands-on experience in the field.
