(605) 990-2400

August 31st-
September 2nd 2020
Mitchell, SD

Soil Health School changed my whole perspective on soil management. I now look at things differently and treat the causes rather than the symptoms. I definitely recommend others to attend.

Classroom sessions will be held at the Highland Conference Center and field demonstrations will be held at the farm of Craig & Gene Stehly.

The Soil Health School is designed for agricultural producers & anyone with an interest in learning how to manage soils for resiliency and profit.

The agenda features classroom style presentations from producers and technical experts from across the state and region, as well as hands-on experiences in the field. Area producers will share their challenges and successes with various methods for improving soil health.

Space is limited.

Early registration is encouraged to participate. **First session starts at 8:00 AM Monday.**

Final session will end at 1:00 Wednesday.

The South Dakota Soil Health Coalition is proud to announce details for the upcoming 2020 South Dakota Soil Health School, which will be held August 31st-September 2nd, near Mitchell, SD. Reserve your spot today!

I gained a lot of new knowledge about land management and believe it is so important that we take care of the earth and soil around us.

Sasheen Thin Elk
Realty Director For The Yankton Sioux Tribe

The experience helps build confidence in what you are doing and confidence in making the investment to change to farming practices that are outside the norm. For anyone interested in soil health, this is one of the best events to attend.

Trevor Zantow
