(308) 201-0065

Join Us!

Whether you already calve in May or are just curious about how it will affect your operation, this is for you. We welcome anyone who is interested in learning about calving on pasture in May.

During this pasture walk, we will cover grazing practices during calving and how to manage pasture rotation for calving season. We will also discuss grazing on brome grass pastures.

What you will learn:

- Grazing practices during calving
- Managing pasture rotation for calving season
- How different management practices affect soil, pasture, and animal health
- Grazing on brome grass pastures

Meet at the Pasture Site:

1/4 mile west off US highway 50 on 263rd Street south of Pukwana
**Look for signs on the highway
